## About Us

Established as a sole proprietorship firm in the year **2004**, we, '**Ramesh Hardware & Electricals**', are a prominent manufacturer, supplier, wholesaler and exporter of **Electrical & Hardware Products**. We ensure that these are fabricated using superior quality material, procured from leading market vendors and in adherence to the industrial norms. As a result, these are highly durable, reliable and corrosion resistant.

In order to make sure that the organizational proceedings are carried out smoothly, we have employed a group of highly efficient and dedicated employees. Furthermore, we own an advanced infrastructure that comprises of several units associated with the different processes. Each of the units are effectively managed by the respective personnel. We ensure that the production unit is fully furnished with the required machinery and the sophisticated technologies, so that the experts are able to timely accomplish the bulk orders. Besides, these are then closely inspected by the quality analysts on various quality parameters. As a result, we have set benchmark through our superior grade products by bringing forth a concept of the turnkey instrumentation projects. Due to our wide distribution network, we have been able to expand our vast client base across the **Indian Subcontinent**.

Our mentor '**Mr. Ramesh Choudhary**' has been the source of inspiration behind the remarkable success achieved by our organization. Owing to...
