Established in 1973 as a small workshop, Rameshwar Engineering Works now needs no introduction in packaging machines circles in the South Asian region.

About Us

Established in 1973 as a small workshop, Rameshwar Engineering Works now needs no introduction in packaging machines circles in the South Asian region. It has the pride of being the company that was instrumental in the beginning of the era of corrugated paper packaging in Bangladesh.

Equipped with a high-tech and innovative team of workmen, Rameshwar is all set to reach heights of success.

With two workshops, one at the heart of Calcutta and the other in a prime industrial establishment of North 24 Parganas, Rameshwar is fully equipped to face the challenges of high demand for high-quality capital machines for the corrugated paper packaging industry.
