Ramyam Intelligence Lab, ...

About Us

We help you, in winning the loyalty and advocacy of your large customer base even during economic meltdown, by efficiently managing the customer experience, resulting in new areas of revenues and soaring profits.

Ramyam Intelligence Lab, delivers solutions for superior customer experience management, helping the service providers take informed decisions. Our innovative CEM product, enliven CEM uses behavioral modeling to understand customers needs, wants and provides actionable intelligence, which helps to create targeted services, promotions and campaigns and revolutionize the way customer engagement is managed.

Today's renowned telecom operators, top banks, insurance companies and travel companies are testing our experience enhancement solutions to accelerate their customers experience and growth. We help businesses improve their customers experiences through a virtual account manager for all their services, subscriptions across the lines of business.

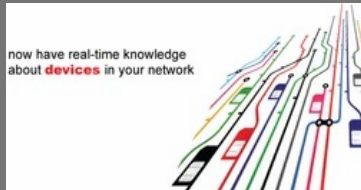

Our enliven CEM based solutions empower the businesses for developing multi angle customer insight and offer personalized services. We profile the customer data to realize the full potential of your customer by recognizing all elements of identity. The solution can save your time and help you in quick decisioning by making complex, transformations using a single engine. The end result will be streamlined and focused engagement and actionability around each and every customer be it in millions.
