## About Us

Rana & associates is a practicing consulting firm, serving clients in the steel industries. The company is committed to meeting client's needs in the growing steel sector by offering full services solutions in consultancy and detail engineering. Rana & associates was started in the year 2010 by a small group of professional & dedicated engineers with an aim to be preferred consulting engineer to their clients, providing professional excellence services with emphasis on reliability, quality and value for money. Rana & associates specialize in the green field steel plant projects right from the concept to commissioning. Range of services includes modernization of existing steel plants and assistance in transferring the latest technology. Within a short span of time we have become a reliable steel plant advisor, providing integrated services to tmt rebar rolling mills, wire rod mills, section mills and induction furnace (if) electric arc furnace (eaf) based steel melt shops. We understand the value of our client's investments and respect it by delivering timely and fully engineered solutions. Our flexible and collaborative approach analyzes the specifics of each requirement and lays the ground work for long-term relationship. Supported by an experienced team of engineers and technocrats, we provide result oriented solutions and unmatched steel plant consultancy services. With our total commitment to serve clients as per their requirements, we provide customized solutions and...
