## About Us

We organize monthly guided trips to places with architectural, cultural and historic value. Our destinations are chosen in two ways - we either schedule trips to explore lesser known places or we set into explore the not so well known faces of otherwise well known places. We aim at providing a holistic palette to our fellow travellers to experience these destinations for a wide range of topics that they are famous for, including but not restricted to art, architecture, history, culture, dance, music, literature, food and more.
