Geared up for **ISO 9002** certification, we manufacture and export industrial tools as diamond dressing tools, hss countersink, lathe turning tool catering the requirements of industries as marine industry, hobby and model maker industries.

About Us

Incepted in the year 1979, **Ravi International** is aspiring to become **ISO 9002** certified company engaged in manufacturing and exporting of industrial tools. The range includes **machine tool accessories, precision tools, magnetic tools, dressing tools, vices, milling tables and rotary tables and cutting tools**. Our range is used in various industries and has been appreciated for its features such as application specific design and durability.

Our range includes **diamond dressing tools, wood working tools, industrial cutting tools, hss countersink, v blocks, machine vice, bench vices, round dies, screw pitch gauge, thread gauges, wheel cutters, tilting vice, rotary tables, carpenters square, sliding bevel, parting tool holder, hand reamers, round dies sets and deburring tools**.

We work with our vision to serve the various industries with our quality tools. We are progressing under the able guidance of our promoters **Mr. G K Jain and Mr. R C Jain**. Leveraging on their 35 years of engineering experience and expertise, we have been able to comprehend the requirements of the customers properly and provide them customized solutions.

We have advanced quality management system that conforms to ISO standards. As per this standard, we make use of quality material and innovative techniques to manufacture of our tools. Additionally, the high quality standards of our tools has enabled us to garner clients from various...
