We are among the trustworthy and most growing organization of this domain, engrossed in manufacturing and supplying a wide assortment of Processing and Finishing Machines. Offered products are demanded highly for their unmatched quality.
About Us

Incorporated in the year 1974, we, R. B. Electronic & Engineering Pvt. Ltd., are ISO 9001:2008 certified eminent firm, which is engaged in manufacturing and supplying a wide range of Processing and Finishing Machines. The offered machines are designed and manufactured with the help of our highly skilled and experienced workforce in tune with the specifications detailed by our customers. Offered range of products consists of Laboratory Wet Processing and Finishing Machines, Laboratory Finishing Machines and Weaving Preparatory Machines. Paying optimum attention to the market existing demands, our well qualified professionals manufactured these machines with high grade basic material. Offered machines are highly demanded by our patrons for their operational accuracy, higher efficiency, longer service life, less maintenance and easy installation.

Supported by a group of highly experienced and well-trained professionals, we have been able to operate our business operations in a highly effective manner. Our team of professionals is well-versed with top notch technology with utilizing the tools and upgraded machines installed in our infrastructure unit. All offered machines are assembled in our sophisticated production facility in line with the industry defined quality norms. Moreover, we have hired highly diligent quality examiners who stringently examine offered machines before final dispatch to our clients. Furthermore, we ensure safely...
