About Us

Infrastructure. We specialise in Data Centre Technology from Mid Range to Enterprise Class equipment.

In the first instance we will arrange a convenient time to meet with you, inspect the equipment you wish to sell and finally put forward a written proposal with a firm offer (subject to certain criteria). If you are too busy why not just email us with your equipment buyouts@reclaim-uk.com and we will provide a firm offer within 24 hours.

If you are happy with the offer and wish to proceed Reclaim UK will arrange to visit the site with their logistics personnel to "walk the site" this will provide the best exit route and ensure the right size truck arrives with the right equipment to seamlessly remove the hardware.

We will test the equipment within 14 days, subject to the equipment being of good working order, we will pay in full for your surplus IT equipment.

It really is that Simple.
