About Us

We're proud to be operating in 90+ countries across world consisting of 130+ regions. That's how we are able to offer unprecedented levels of customer service and provide access to real estate resources not available anywhere else.

When you choose RE/MAX you have the power and support of our worldwide network and the proof is in the results. Nobody in the world sells more Real Estate than RE/MAX.

RE/MAX International Property Group was formed based on the deficiencies of the real estate industry. The fundamental deficiency being that, not all people operate at the same level of efficiency, yet are remunerated at the same percentage rate of commission.

At RE/MAX we equalise the cost of services provided to our agents by creating a menu of services that the agent may choose from and is responsible for. This model is similar to that used by associations of lawyers and doctors where these professionals share a portion of the costs involved in running their business but receive 100% of the income they generate. It is this simple shift in approach where the RE/MAX agent receives 100% commission for being accountable and responsible for their costs of business that has made RE/MAX an international phenomenon. Simply put, it is a model designed by real estate people for real estate people, where agents can be in business for themselves but not by themselves.

There will be more challenges and opportunities that face the real estate industry in the next two to three...
