Men and Kids. -----

-----Rex Straut symbolizes the cool, global outlook of the new generation of Indian youth. The “Go, Tell the world” attitude is best expressed through Rex Straut’s entire range of Jeans for men and boys. The Rex Straut Jeans is not just an apparel stitched together from Denim cloth. The Jean making here is a complicated process taking some times as long as four months. The elaborate process begins with creating absolutely new designs and style patterns. The young brigade of designer brains work in absolutely free environment, with sky as the only limit. The Company screens the designs to select the ones which match with the aspirations of the market. The patterns are then carefully crafted over the denims, with minute attention over the details and quality standards. There is Rex Straut mark of quality on every pair of Jeans
