About Us

RNL Millets brings to your table, the ancient grains of our centuries old civilization – Millets.

We have our own state of the art Millets Processing Unit located at the foothills of the Western Ghats at Theni, Tamil Nadu, with a processing capacity of 5 MT per day.

We ensure that our Raw Millets are sourced directly from the farmers and FPOs within the state of Tamilnadu to maintain the quality throughout the year.

RNL Millets also encourages farmers to grow millets organically, eliminating the use of chemical pesticides and fertilizers, thereby reducing the financial stress of farmers while also getting a higher price for their organic product.
