About Us

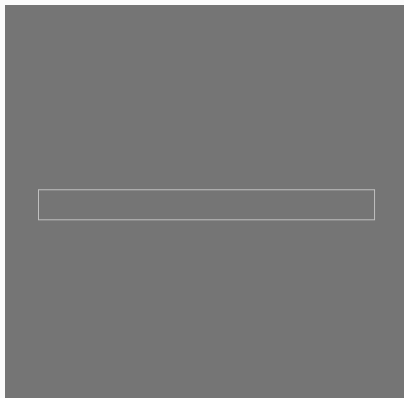

Rocky chemicals is an indian company manufacturing intermediates for drugs, dyes, agro chemicals and fine chemicals. It started its saga in a very modest fashion in 1990 as a partnership firm in gidc ankleshwar, district: bharuch, gujarat. Since our inception, we have been customer focused and technology oriented company. We at rocky chemicals develop and deliver a wide range of intermediates for drugs, dyes, agro chemicals and fine chemicals. Our intermediates, dyes, fine chemicals and agro chemicals have been accepted whole heartedly by our customers, thanks to stringent quality commitments in terms of delivery, product quality and services.
