We are at the forefront of the industry by manufacturing and supplying superior quality Survey Drawing Instruments. Our offered equipments mandate our pioneering performance by serving beneficial features of quality construction and simple operation.

## About Us

**Roorkee Survey & Drawing Syndicate** has been Manufacturing and Supplying leading quality Survey Drawing Instruments since its inception in the year **1956**. However, an emerging truth of technological constraint is guiding us to bring forth a wide assortment of highly demanded products, such as Hydrogeological Equipments, Electronic Theodolites, and Automatic Levels. The secret behind our steady growth and expansion is our offered quality that is unsurpassed when combined with the product features of lower operating cost, quick set-ups and simple operation, and highest level of accuracy. Further, our compliance to quality standards and rendered economical price bands has increased the demand of our products to the highest degree.

We promote and frame innovation in our offered instruments that made the task of surveying effortless. Over the years, we have nourished the proficiency to understand evolving clients' needs and produce instruments to meet their needs. Our manufacturing base is fully equipped with leading technology that amplifies our productivity and cost competitiveness. Moreover, the culminating result of the endeavors of our ambitious team members is cherished by wide industries for construction, surveying, leveling, and layout work.

The continuing commitment of our leader **Mr. M. S. Marwaha** helps us to become the leading source of innovative survey drawing instruments. His varied industrial expertise enables us...
