Royal Plast Industries

<https://www.indiamart.com/royalplastindustries/>

We are a well-known **Manufacturer, Trader and Supplier** of **Water and Pressure Pipes**. These are known for their rust-resistance and durability.

About Us

Established in **Delhi**, we, **Royal Plast Industries**, are highly acclaimed **Manufacturer and Wholesaler** of premium quality **Water and Pressure Pipes**. These are manufactured in compliance with the existing industrial standards of quality at our modern manufacturing unit. Premium quality raw materials are used for the manufacture of these sturdy and durable pipes. These are widely used in various industrial applications owing to features such as sturdiness, durability and damage-resistance. These pipes are highly rust-resistant, because of which they are ideally suited for use in applications involving water. Moreover, the ability of these pipes to withstand high pressure makes them highly suitable for use in high pressure applications. High pressure does not bend or break them in any way. All our products are rigorously audited for their quality and guarantee optimum end user satisfaction. **Our products are manufactured in total adherence to industrial quality standards and guarantee complete satisfaction of the clients.** All our products undergo stringent quality checking to ensure that they are defect-free and flawless. The quality inspection is carried out by professional quality auditors. They check the compliance of our products to industrial quality standards. Advanced machines and equipments are used for the manufacture of these pipes. We source raw materials from reputed vendors of the market. Our workforce comprises of dedicated and...
