About Us

The long term goal for **R.P. Mahajan and Sons** is to earn the reputation for being the place to go for cutting edge technology; knowledgeable, reliable, professional personnel; and quality products and accessories which relate to the all types of used workshop and industrial machines. We will share our passion, excitement, and knowledge of best used machines from around the globe for your disposal. Our name has become the synonymous with only the highest quality, integrity, and performance in our industry. All departments will be working together to achieve and maintain these goals. Buying and selling used machines through R.P. Mahajan and Sons is secure and professional. International machinery trading is complex and can be risky. A wide array of services are required for each transaction to run smoothly from beginning to end; legal and financial support, transport and engineering services, and insurance cover are to name just a few. When you place your used machinery needs into our hands, we handle your transaction with integrity straight through from your inquiry, to the completion of your purchase or sale. Thanks to our international knowhow and worldwide network of partners, R.P. Mahajan and Sons can offer customers further solutions to those that they just find in their local markets. We bring them innovation by transferring knowhow from nation to nation. Our experience in managing international equipment projects is the key to our success in achieving...
