About Us

We live in exciting times. Today’s businesses are not mere balance sheet statements. We have to draw a balance & we have to make a statement. Today, we are blessed with the power to dream, the energy to perform, technology to simplify, and engineer newer ways of development. We are here to enrich the lives around us and build a better tomorrow! Welcome to the RSG Group. We invite you to join us in our exciting growth journey! RSG Group is one of the youngest business groups making its presence felt in today's economic landscape. Headquartered in Chennai in Southern India, we conceptualised in 2009, with the core purpose of bringing global practices in infrastructure development to Indian markets. The Group has multi domain integrated business interests namely Power, Agro, Engineering, Advisory Services & Natural Lightning. Right from inception, we have, as a company believed that long term developmental solutions have to be marked by community inclusivity, environmental sustainability & economical feasibility. As a young company we have the advantage of successfully blending the wisdom of the old and the technology of the future. Like in the building of any big structure, we have today laid a strong foundation of core values & commitment, as the first step in the growth of a large enterprise that RSG Group will be in the years to come. The group is ably guided by a team of highly motivated techn...
