## About Us

RSI industries has been India's leading name in manufacturing hand tools since 1965 & is a visionary dream of founder chairman Late Sh.Kimit Lal Chopra. The company is a self-contained fully equipped unit with latest machinery, modern technology and excellent infrastructure to cope up the commitment to buyers for providing a comprehensive line of world class professional hand tools. 'RSI' Tools are perfectly designed and made out of selected steel as per the international standards and specifications. Starting from raw material selection up to the final finished products, the manufactured hand tools goes through stringent tests. We do continuous research to reach close to precision and excellence. Placing a firm emphasis on quality, rigorous standards of inspection are exercised at every stage of production to reach perfection. We are always aware for our quality across the nation & international markets and have done a tremendous job in latest years. This memorable journey is like a marker on a map which helps us in future. **RSI Tools** is an outstanding forerunner in the quality manufacturing & exporting of wide-range of Hand Tools & Scaffoldings. In 1965 RS Industries started as an individual company which after a short span became the market leader. With the decades of experience at the backrest, RS Industries was configured by it's Founder Chairman Mr. Kimti Lal Chopra & is now professionally managed by Mr. Kamal Chopra and Mr. Vikas Chopra on...
