About Us

SmartTech Rushabh was established in the year 1983. A well planned unit, it is synonymous with one of the best manufacturing facilities for printed products in asia-africa region, using a judicious mix of japanese & german technologies. It also allowed research & development at a much larger scale. No wonder it is one of the handful of world's preparers offering special airline products, security printing and has become one of the largest preparer of scratchcards (ie more than a billion pins per month). Competing with global brands and based on its world class r&d prowess, the company has gained recognition from global technology/oem preparers.

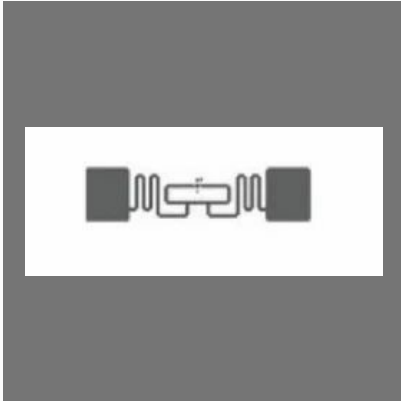

The company had matured as a truly global entity smartly developing and employing technology for a wide range of sectors and applications. Simultaneously, smarttech is in the process of expanding its manufacturing presence to more regions of the globe to achieve a more intense market communication. The company is also actively persuing a well planned m&a policy. Smarttech is the sole trademark the company actively promotes as an extension of its business strategy to bring in better synergy & value addition, eventually benefitting its bottomline.
