## About Us

Commenced in the year **2012**, **Ruthvik Industries** is counted among the top most companies. We are working as a **sole proprietorship** firm. Our company's operational head is located at **Chennai, Tamil Nadu (India)**. We are the leading **manufacturer**, engaged in offering a good quality assortment of **Rice Bag, Shopping Bag, Wedding Bag, Non Woven Car Seat Cover** and many more. All these products are timely provided by us. We are also providing **Car Seat Repairing Service** to our clients. During the past two years, we have learnt about environment pollution because of plastic bags. Our firm's non woven bags stands as a great remedy for this problem providing super quality non woven bags with personal social responsibility. That plastic can be bad for us and bad for the environment. Recent studies have shown that there is more plastic than plankton in some of the remote parts of our oceans. And there are increasing reports on the human health effects of chemicals used in plastic products. Let's also not forget that plastic is made from petroleum, which are a non-renewable resource and a major contribution to global warming.
