We are the leading manufacturer, supplier, exporter, trader and wholesaler of Ultra Filtration System, Granular Activated Carbon and many more. We also provide Water Treatment Plant service.

About Us

Sagar Technochem is a company based in **Rajasthan**. We have received much acclaim in the industry. With our establishment in the year **2003**, we have emerged as the leading **manufacturer, exporter, supplier, wholesaler and trader** of wide range of water filtration products, such as **manufacturer, supplier, exporter, trader and wholesaler of Ultra Filtration System, Granular Activated Carbon** and many more. We also provide **Water Treatment Plant** service. We have set stringent parameters and quality checks at several points in the manufacturing process to ensure that no defects are retained in the whole system line. We our dear customers with products that, while being completely reliable and premium, exhibit other superb properties of being of High performance, Rugged construction, High operational fluency, Rust resistance body, Excellent output, Easy to operate and much more. We believe that quality comes second to no other factor in business and have taken rigorous steps to maintain the consistent rendering of it. We procure raw ingredients and fabrics from the most reliable and reputed vendors in the market to avoid flawed and counterfeited supply. We have set several strict and thorough parameters to ensure the best processing standards. We implement manufacture and production in an ultra-modern infrastructure. Various thoroughly trained and skilled teams of 26 to 50 individuals are given the responsibility to handle and monitor the...
