

# Sahara Engineers

<https://www.indiamart.com/sahara-engineers-kolhapur/>

Manufacturer of aluminium gravity die castings & machining of precision mechanical engineering components on CNC turning center and vertical machining center.

## About Us

Sahara Engineers is a reliable entity engaged as a Manufacturer and Supplier of efficient Metal Castings, Mechanical Engineering Components and Mechanical Assembly. We manufacture Metal Castings in the form of Aluminium Castings and Cast Iron Castings. We provide these products to several buyers across the country for different industrial applications. We make sure, for the same reason, that all our products are high on performance and other specifications. We make our products available in desired specifications, so as to facilitate options for clients. Our company provides products that are useful in several aspects to clients. Metal Castings are used for production and maintenance of many kinds of industrial objects. For this very reason we make sure that we do not leave out any kinds of discrepancies in our products. We go to all limits to ensure that the products provided by us are mutually beneficial. The most appropriate characteristics like dimensional accuracy, strength and durability are instilled in the range of Metal Castings provided by us. Our main motto is to provide maximum satisfaction to clients.
