About Us

Sai Fab Engineers & Co., is one of the leading manufacturers and designers of Shelving Systems that are manufactured using quality material along with the efforts of our trained technical staff. Our wide range of products is capable of catering the diverse requirements of the various retail outlets, homes and offices. These products are acclaimed across the globe for their combination of appearance, efficiency, durability, easy installation and cost effectiveness. Our area of expertise lies in providing services that suit all homes, tastes and needs. The unique wall-mounted concepts for homes are in accordance with the specific needs and demands of our clients that makes small place feel spacious and comfortable. With the creative bent and artistic vision of our team, we are able to offer our services beyond the expectations of our clients. Since our inception, our goal has been to provide storage solutions to our esteemed clients with the best fixtures in the industry at competitive pricing. We are capable to outfit any storage with top quality retail displays as well as high-end and reliable steel shelving from front to back, showroom to stockroom. Further, we offer personalized services to our clients with the help of our expertise, which has transformed retail space into a pleasurable shopping environment. Uniquely designed, our adjustable shelves efficiently improve the storage facility by making best possible use of the available space. We are capable of offering...
