Saka Engineering Systems Private Limited

<https://www.indiamart.com/sakaengineering/>

We are engaged as one of the renowned manufacturers and suppliers of a wide range of Industrial Drying Systems. These are appreciated for high end features such as sturdy construction, low power consumption and less maintenance.

About Us

We, **Saka Engineering Systems Private Limited** are one the prominent names in the field of manufacturing and supplying a wide range of Industrial Drying and Evaporation Systems. Our experts make use of quality raw material procured from reliable and trusted vendors to ensure durability in our range of equipment. Apart from this, we also **undertake services such as engineering, consulting and energy audit for our clients**. These equipment are renowned for high end features such as low maintenance, corrosion resistance and high performance. We offer Industrial Equipments & Services like Industrial Drying and Evaporation Systems, Pollution Control Equipments, Material Handling Equipments, CIP Systems, Consulting & Engineering Services, Plants Modification Services, Site Fabrication Services, Equipment Installation Services and Energy Audit & Conservation Services. Our entire range of industrial drying and evaporation systems is manufactured at our ultra modern manufacturing division. Our designing unit is equipped with requisite machines such as **fully automatic drying plants with advanced and smart control systems such as PLC and DCS** to meet the clients' specific requirements. Further, with the help of latest **CAD/CAM facilities** and **3D modeling systems**, we ensure perfection in design. Another facet of our manufacturing unit is that, it is integrated with quality testing facilities that enable us to meet both national and...
