About Us

SAMRIDDHI, An initiative of Sandeepon Music & Educational Society (Regd.) Delhi , aims to promote education and self respect among the Under privileged children. It is operating in the Sector 3, Vaishali and having about 50 students from near by area. The Foundation is a not-for-profit corporation supported solely by voluntary contributions from Organisations like Care & Concern, Rotary Club and friends of the Foundation who share its vision of a better world. The total number of students we have taught till now are **300**. Out of these, 20% drop outs from the schools (public or government) we send them to after they pass out of Samriddhi with the help of donors. 80% go to schools. We track these students after leaving Samriddhi. We provide children with the birth certificates, since they dont have any. Aim Sandeepon Music & Educational Society aims to identify the talent hidden in the under privileged children and help them shape their talent to professional level. The Society also proposes to inculcate in the deprived children a sense of self respect by developing their overall personality, communication skill and sensitizing them about the virtue of health and basic hygiene.
