## About Us

We are one of the largest manufacturers of cold rolled (CR) and galvanized (GI) drums and the only exporter of small drums in India. The company was established in 1976 when there was a very large requirement for drums but with very little quality suppliers. Since then it has seen a steady increase in terms of growth, while at the same time upgrading to the latest technologies and constant improvisation of quality. Today Santhi Industries stands purely on its impeccable quality, proved by an exhaustive list of clients containing reputable companies, most of them multinational.
