Established in the year of **2018**, **Saraswat Tensile** is one of the leading **manufacturer and wholesaler** of **Tensile Structure, Polycarbonate Structure, Awning Structure etc.**

## About Us

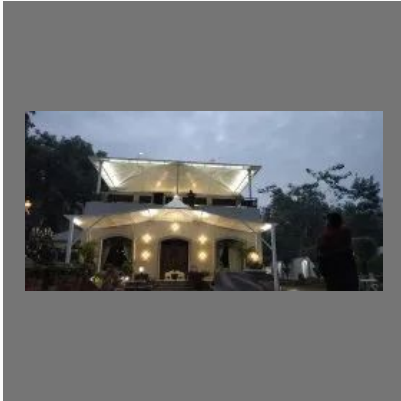

Established in the year of **2018**, **Saraswat Tensile** is one of the leading **manufacturer and wholesaler** of **Tensile Structure, Polycarbonate Structure, Awning Structure etc.** is company specialised in the design and construction of lightweight stressed tensile membrane structure and space frame structures, serving all over Indian markets. As a specialist in designing and building tensile membrane structures, Saraswattensile is involved in every stage upon client selection of combination of architectural design and building requirements. With more than 10 years of design and manufacture all type of Tensile Structure, our team is intelligent to offer a full range of services from idea design, detail design, load analysis, contract document grounding to project management, contract supervision and control, thereby ensuring that our clients receive the best professional service. We are quick to accept international influences and translate the same into our products and projects. We have in house M & A Steel manufacture and membrane heat-sealing facility. We also have in house spray painting facility under **Mr. Shailender Singh**, for M. Steel framework. Somewhat than acting us booking agents for companies abroad we worked with consultants to design and develop membrane structures in INDIA. Having the construction developed in INDIA saves a lot of foreign exchange for the country it also saves a lot of cost and...
