

Savison & Company

<https://www.indiamart.com/savisoncompanykolkata/>

Trader of silicone, concrete cutting solutions and fixing systems.

About Us

Our firm was started in December 1979, as Distributor of M/s. Metroark Limited, who were the pioneer of manufacture of Silicones in India.

We have been catering to the industry in the Eastern India with highly specialized silicone chemicals.

One of the major use of silicones is in the protection and preservation of buildings. On demand from clients we started application of silicone masonry protection products.

In the mean time silicone sealants were introduced in India by GE USA. We became their Distributor for Eastern India and started selling as well as applying on buildings.

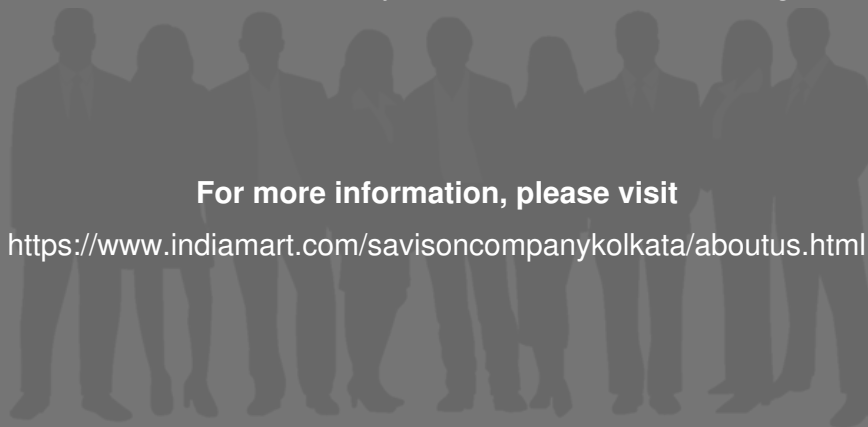

In the year 2000 M/s. Wacker Chemie AG, of Germany had a joint venture with M/s, Metroark Limited, taking 51% share of the Partnership.

With the coming of Wacker Silicones many new products were introduced and they brought highly sophisticated silicones for masonry protection.

With major thrust from the Principal Company we got in to the building protection and preservation business in a large and sophisticated ways.

Our major large work was the waterproofing of stone and GRC façade of ITC Sonar Bangla, in the year 2002. After which we have completed work on many prestigious buildings like (i) State Bank of India, Local Head Office, on Strand Road, Kolkata, (ii) United Bank of India, Head Office, Kolkata., (iii) The Academic Block of IIT Guwahati, and many other smaller Private buildings.

We have also...
