Founded in 2012, Scita Solutions is pioneer in indigenously developed Parking Systems, Surveillance Systems, Toll Systems and Home Automation System with headquarters in Bangalore, India.
About Us

Scita Solutions stepped into the market in the year 2012 as a prominent manufacturer, supplier, exporter and trader of best quality products. Our products range comprises Home Automation Product, Occupancy Sensor Controller, Security Surveillance System, Under Vehicle Scan System, Parking System Supervisory Software and many more. We are Sole Proprietorship based firm located in Bengaluru, (Karnataka, India). We manufacture our products from best quality material which we source from trusted vendors of the market. Our product range is developed under the vigilance of our professionals. We have hired experts for manufacturing our products as per the needs of the customers. We test the products on various quality parameters so as to ensure their accurate working and correctness. The products of our company are widely known for their high grade quality, high performance, durability, reliability, long functional life and many more features.

Mr. Pradeep Vedagiri (Chief Executive Officer) guides the team for working in unity so as to make the team perform at its best. The team members of our company work in cooperation with each other. The position that our company has achieved cannot be possible without the support of our team. The team members of our company comprise quality controllers, engineers, technicians, skilled professionals and many more. Our team is highly diligent and work with dedication. We feel proud to have such...
