

# Seventh Sense Technologies Private Limited

<https://www.indiamart.com/seventhsense-technologies/>

Offering food catering service, supply chain management ERP solution etc.

## About Us

Seventhsense Technologies (7thsense) is a global technology provider of software products, solutions and consulting services. At 7thsense we are committed towards improving the return on investment of our clients through consistent performance, delivery and quality. From strategic and operational consulting to unwavering maintenance and support, 7thsense is recognized for its strong focus on end-to-end ERP implementation and EPM/BI solutions. 7thsense has had the privilege of working with several industry leaders and fortune 500 companies belonging to varied domains including Airlines, Logistics, Food & Facilities, Construction & Engineering, Education and Supply Chain. Projects with these clients involve business critical system implementations and challenging roll outs across multiple locations. Equipped with a globally deployable team of domain and functional experts and an impressive resource pool, at 7thsense, we have established a stellar track record of on-time deliveries and delighted clientele.

Established in 2001 with headquarters and Centre of Excellence in Chennai, India, the company has grown steadily covering a much larger geographical footprint today. Today, it includes an entirely owned subsidiary in Singapore, a legal entity in KSA and customer proximity centers in the Middle East to address the needs of clients in the GCC region.
