Shakya Infotech has grown into a leading IT consultancy in Agra, providing expert support to Microsoft networks to small and medium sized businesses.

About Us

Shakya Infotech has grown into a leading IT consultancy in Agra , providing expert support to Microsoft networks to small & medium sized businesses. Formed to provide businesses with a professional support service without the needs their own IT department. Our engineers are highly skilled and have extensive experience in supporting small business networks, providing a support service and response that is second to none. With few years experience in small business IT Networks, the Internet and Network Security, Shakya Infotech provide a professional and efficient service.

It can be difficult for small businesses to find good outsourced IT support, whilst being unable to justify a full-time internal IT support team.

Whether your business needs occasional expert advice during network upgrades ora major IT installation, or you just need desktop support, Shakya Infotech will provide a tailored service that matches your needs and your budget.

At Shakya Infotech, our daily mission includes:
