About Us

We "**Sharada Plywoods**" are one of the **Wholesale** and **Trader** of **Plywood Board, Hardwood Plywood Board, Marine Grade Plywood** and much more. The environment is under threat, and it is our industry that can help in extending the conservation of the forests, as one unit volume of solid timber is equal to two unit volumes of plywood. The Indian infrastructure is changing at a very rapid pace with major construction taking place, not only in the metros but also at the district towns and industrial cities. A window of this magnitude offers an opportunity to touch the lives not only of ourselves, but also the society in promoting forest conservation

Mr. Suresh Tiwari, is the mentor of our company, whose experience and knowledge have enabled us to cater to the demands of customers. His leadership qualities have enabled us to attain goals of our organization.
