## About Us

Sharma Engineering Company was established in the year 1980. We are leading Manufacture and Supplier of Automotive Water Pump, Motor Hub Clutch, Bike Gear Lever etc. A Clutch Hubs is used to transfer the torque to the driving shaft of the vehicles. The Clutch Hubs are designed as per the specifications provided by our clients. Use of high grade metal alloys makes these hubs robust and resistant to heat & wear.

We market these clutch hubs to clients at industry leading prices. Our organization is engaged in offering engineered range of Clutch Hub or Clutch Release Hub that is designed in order to fulfill the requirement of several automobile industries. These Clutch Hubs are manufactured by using extreme grade of raw material and are available in different specifications.
