About Us

SHEMROCK is India's 1st Playschool Chain, which is credited with revolutionising the concept of early childhood education since 1989, by pioneering a vibrant and child-friendly system of learning. Today, with more than 3,50,000 children already having received the foundation for success from its 525+ branches, **SHEMROCK, the Award Winning School Chain**, is a leader in preschool education and is a brand to reckon with. **SHEMROCK** is promoted by the Arora family – which consists of two generations of the country's leading educationists with over 100 years of combined experience in the field of education. It all started when Dr. D.R Arora and Dr. (Mrs.) Bimla Arora – a husband-wife team of academicians envisioned a school that presented the children with an education system that was based on their 30 years of academic experience in India and Abroad. They started a model school with the simple aim of creating a child-friendly & harmonious environment, focussing on the satisfaction of a child's inquisitive mind and thorough concept clarity. The word spread quickly. Realising the need for a good preschool in the society and by putting up their experience and knowledge together, they started SHEMROCK Preschool with a unique concept that focused on playful learning.
