About Us

Big Dry Fruits is a venture by Shivram Peshwari & Bros, a 100 year old firm engaged in wholesale and retail trading of fruits and dry fruits. We are proud to be a part of Hyderabad's history in being the oldest operating store with its 4th Generation carrying out the family legacy at the same location. Our store has been a landmark in the landmark of Mozzam Jahi Market, the first mall of Hyderabad, built by the great Nizam himself. Our quality products and service has been the reason for us being successful over the years of active business. We guarantee quality material especially handpicked and carefully packed to our customers. We have also been covered by various national and local news papers for our legacy. With the changing times and customer preferences of ease of shopping, we have decided to enter the online market with our own website. Our products can also be found at various leading market places. We are also expanding our offline market by tie ups with new age grocery delivery companies. We hope your experience with us is pleasant and satisfactory. We are happy to hear suggestions/complaints and customer reviews. Below are some of the pics of Hyderabad's historical market and our coverage in Times of India news paper.
