About Us

Established in the year **1995**, we, **Shreeji Engineering**, are the **manufacturer, wholesaler** of **Vacuum Pump, Vacuum System, Impregnation Machine and Distillation Vacuum Plant**. We are **service provider** of **Vacuum Pump Repair Service**. We manufacture all our products using high-grade raw material and modern machinery that are procured from the reliable vendors of the market. Conform to international quality norms & standards, all our products are widely appreciated by the customers for their corrosion & abrasion resistance, sturdy construction, low maintenance, easy installation, longer functional life and excellent performance. All our products are available in various sizes, designs and models at market leading prices to suit the individuals demands. In addition to this, we provide customization facility to customers as per the specifications laid down by them. For carrying out all our business operations in a systematic manner, we have developed a modern infrastructure. Our infrastructure is installed with latest technology, machinery, tools and instruments that are required for making a qualitative range of products. It is managed by a team of expert professionals, which utilizes all the available resources for making the entire range as per the specifications laid down by the customers. We also have a team of expert quality controllers, which thoroughly checks all the finished products on various parameters to ensure...
