About Us

About us

In the 1970's when Ayurveda and yoga were still looked with a lot of apprehension at international levels, few believed it , out of curiosity and no other alternative. Some believed because of their own scientific thinking.

In those days, Dr Chandrasekhar Gopalji Thakkur was a pioneer in spreading the knowledge of Ayurveda in the US, Germany, France and England . He also travelled extensively in the Middle East and the Far East.

Sind Ayurvedic Pharmacy is the first pharmacy which has combined astrology and medicine since 1911 and prepared the products keeping in mind the equilibrium of yin and yang, vayu, pitta and kapha. Every planet in the universe has direct or indirect effect on human body and hence the amalgamation of this knowledge of astrology and medicine has made Sind Ayurvedic Pharmacy's drugs very effective and curative.
