## About Us

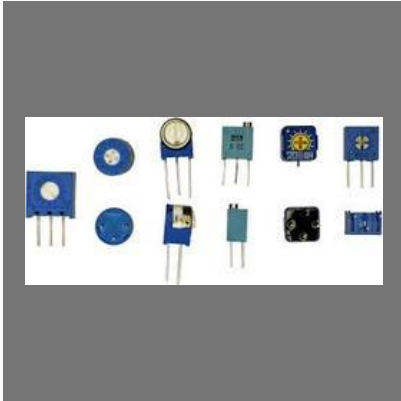

It started in 1997 with an idea, a new concept in distribution. Today, Singodia Electronics Pvt Ltd is one of the fastest-growing electronic component distributors in India. With a modest start in 1997 we have come a long way. Singodia started the business as “Singodia Electronics Pvt Ltd” in New Delhi in 1997 as Independent distributor of electronic components. Singodia is reputed throughout Electronic Industry as a Professional Electronic Components Distribution house for quality Components. Singodia's management team, with more than 15 years of experience in the industry continues to focus on excellent service to worldwide customers and strive to build long term business relationships based on effective communication, competitive pricing and on-time delivery. We welcome you to try us for a pleasant surprise.
