About Us

Sky Labs were established in the year **2005** as a **Sole Proprietorship firm**. We are known **trader and supplier** of products used for security purpose like **CCTV Camera Systems, Wireless Accessories, Security Cameras, Fire Alarm Systems and many more**. With the growing demand for security against various causes the need for security products also arises. With the growing demand arises the need of trading and supplying the products from the manufactured unit. **Sky Labs** act as a medium through which buyers get security products from the manufacturing plant at reasonable price with quality assurance. The product line of the company is known for the quality products, high wear and tear strength, durability and reliability. The vendor base of the organization is vast which helps in acquiring the best of products from the manufacturing units. The company enjoys the credibility of a number of vendors. The vendors are chosen after an extensive market research conducted to ensure that the vendors are producers of quality products. Being a customer oriented organization, the primary goal of the organization is to ensure that the customers do not feel cheated on the quality brought by them and to look after the quality of the products a highly qualified team is recruited that look after the supply of the products. The team is managed by the highly qualified **Mr. Srinivasa T**, who is the **Proprietor** of the firm. Under his guidance and...
