About Us

Meaning of Slaney: River of Health

Ten of the 20 fastest growing occupations are healthcare related. Combining state of the art technology and the personal human touch, the healthcare industry diagnoses, treats, and administers care around the clock, responding to the needs of millions of people—from newborns to terminally ill and the aged. We, "**Slaney Healthcare Pvt. Ltd.**", believe in service to mankind and humanity by treating patients with our special quality products.

Slaney Healthcare has taken the initiative to bridge the gap between patients and healthcare professionals by taking an oath and is committed to bring need base products to healthcare industries.

To fulfil our commitments we have organised a team of professionals who are in the healthcare field to survey the requirements and need of the doctors to serve humanity in an exemplary manner.

Moreover our team of technocrats are periodically attending leading international conferences and roaming across the globe to scout new molecules, surgical consumables, instruments, medical devices etc. which are unavailable in the Indian market.
