About Us

Established in the year **2007**, our organization, '**Sneha Enterprises**' is a **Sole Proprietorship Firm**. We are engaged in manufacturing, supplying and exporting a widespread range of **Precision Turned Components and Industrial Fasteners**. Our annual turnover of **10 Million INR** approximately, reflects that we are growing with an enviable momentum in a competitive market scenario. Our precision engineered components are specially fabricated for use in automotive & engineering industries and the power sector. Clients across different regions of the world appreciate our range for its impact resistance and anti-corrosive properties.

A team of diligent professionals and laborious employees has been recruited by us. These individuals strive hard for the improvement and betterment of our products and services. Different sub-units including the quality control unit and the warehouse & packaging unit have also been developed at our premises. These sub-units assist us in effectively developing international standard products as well as safeguarding the ready orders. It is due to the diligent efforts of our professionals that we are able to operate in a well organized manner. Capable of bulk production and timely deliveries of consignments, we serve a huge clientèle in the national and international markets.

Under the eminent leadership of our mentor, '**Mr. S. P. Mahapadi**', we have earned valuable industry experience. His...
