Soffit Infrastructure Services Private Limited

<https://www.indiamart.com/soffit-infrastructure-services-pvt-ltd/>

Soffit is in a mission to accomplish the dream of empowering business organizations by “Digitalizing their Business”.

About Us

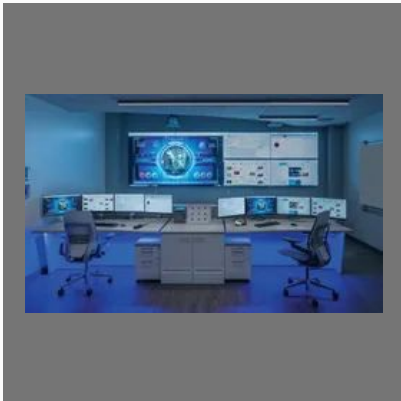

Soffit services have evolved based on its exposure to various industries and their demands and challenges. Each of these services are carefully tuned to meet specific business needs, while collectively covering all the stages of technology implementation and updations; this is required for organisations that are in growth phase or are mandated by the market needs to be in sync with latest technologies. It is great help for a client to have a single business focused service provider - who is product & technology neutral - and can guide, build & manage the risks & challenges associated with Information Systems.
