About Us

Soham Solar System is a leading Wholesaler of Solar Products, Solar Lights, Solar Water Heaters, etc. We are engaged in providing wide quality assortment of Solar Water Heater. Our Solar Water Heater System is used for many industrial, commercial and domestic purposes. This system is used for heating water by using sun light. It is made by using supreme technological standards and quality checked components. Our range of Solar Products includes Solar Power Pack for houses, commercial building, power plants and up to 5 MW for industries. We also provide water purifier, solar pumps and other equipment as required by clients.

These solar products are manufactured using modern technology and can be designed as per the specific requirement of clients. Our firm has SolarLights in the storage unit to meet the diverse requirements of residential and commercial users. These lights are prepared at supplier end with the use of best component which are recommended by experts. All these lights are hard in frame and offered to the consumers in different watts. In addition to this, offered lights are available in market at lesser price.
