About Us

Spectrum Consultants is a leading energy management & solution company with head quartered in Bangalore; the silicon valley of India. Spectrum Consultants was started in the year 2002 with the vision to enhance the lives of people starving from electricity across the state & the country as well. The founder of the company Mr C R Suresh has immense experience and had been in the field of power & electrical devises architecture, for the last 40 years, he has sown the first seeds of ethics & integrity in this enterprise. A team of Professional Engineers work at our organization, which give the customers the best consultation experience. This company is into utility based turn key projects, has the channel partnership with some of the leading power & energy companies in the world such as ABB, L&T, SINTEX, IES etc., solar system integration, interior lighting design, energy modeling, trainings & 8th semester engineering projects.

Spectrum Consultants offers end-to-end consultancy, implementation, management and after sales support to its esteemed customers. Experience, Expertise and On-Time support has allowed us to stay competitive in an ever-changing environment. Ours is an ambitious company driven by a pioneering spirit, a successful history, and an exciting future; a dynamic company strong customer base and quality products.
