## About Us

Started as a small electrical contracting unit in the year 2005, handling electrification of Apartments and Residential Layouts, SEC has grown into NUMBER ONE TRUSTED Turnkey Electrification contractor for top MNC's SHUTDOWN ACTIVITY. Counted amongst the top most Electrical contractors of the country, SEC's claim to fame has been the unabated trust for flawless solutions provided to its clients over the years.

Time and again SEC has been successful in garnering the trust of its clients. This is apparent in the fact that the marketing team of SEC has the easiest jobs around yet the size of business that SEC does is humongous. The credence that SEC has gained amongst its clients has been so enormous that in 7 years since its inception, SEC has evolved from being a small time contracting firm to one which handles projects of the size of Automobile & Clay Brick Plants & food processing units. SEC has evolved with time and sometimes ahead of it.
