## About Us

**Secunderabad Printed Cartons** was established 26 years ago, as an ancillary to **Indian Drugs and Pharmaceuticals** as they wanted a reliable local supplier specializing in printed packaging material and who could supply at a short notice. Since inception we have had a dedicated approach- to provide customers with the best possible packaging solutions at the shortest notice.

Subsequently we have been associated with a number of quality conscious companies with manufacturing facilities in Andhra Pradesh and across India. Today the packaging material we supply is used to pack products that are exported to more than 50 countries.
