Spectrum Technology

<https://www.indiamart.com/spectrumtechnology-ambala/>

We are the prominent Manufacturer and Supplier of *Data Acquisition Systems, Do it Yourself Kits, R&D, Laser engraved products, automation solution of computer controlled lab equipments, Chemical Lab Equipments*

About Us

“**Spectrum Technology**” is a **Partnership** based company, established in the year **2014** at **Ambala (Haryana, India)**, engaged in **manufacturing, exporting and supplying** a wide gamut of **Laboratory Adapters, Laboratory Weighing Bottles, Laboratory Burettes, Laboratory Condensers, Laboratory Measuring Cylinders** and many more products. In complete compliance with the set quality norms, these products are manufactured by our capable professionals using modern machines and well-tested material. Provided products are demanded in the laboratories, widely known in the market for their superb features like heat proof, high durability, high quality and lightweight. We make available these products in several specifications to meet the exact needs of our esteemed clients. We export our products in **Middle east & America**.

In order to perform all our business activities in the best manner, we have built a well-equipped infrastructural base that is very spacious and outfitted with all required machines and technology. We are supported by adept professionals in order to efficiently accomplish the set targets of the entity. With the help of our infrastructure and experienced team, we are able to bring the bulk orders of clients in prompt manner. Being a client-focused company, we are able to attain the utmost clients' satisfaction. Also, we offer various modes of payments for the convenience of our clients. Under...
