SRA has established a unique reputation in the solid surface materials industry. We have extensive experience in assisting kitchen dealers, builders, interior designers, architects and project managers in all aspects of integrating solid surface materials into their projects. We offer a range of services including; Specialist design & technical consultation, Estimating & quoting, Project fabrication & installation, Provision of sampling & prototypes, after sales service - Repair works & Refinishing. We have a fully equipped factory capable of manufacturing large scale commercial projects, as well as the intricate projects requiring a high level of attention to detail. Manufacturing/Installation Process, After final specifications have been confirmed, our customer service department will contact you to organise a site measure/template. Following this one of our competent site tradesman will accurately measure/template your cabinets and wall shapes, which will ensure an exact fit. The product is entirely fabricated in our manufacturing plant, which leaves only on site joins to be finished. This allows for minimum disruption and mess. This process is coordinated with other on site trades, if need be,...
