About Us

The Sreerama Group started in 1999, is manufacturing and supplying various construction Equipments like Props, Spans, Centering Boards, Scaffoldings etc, which replaces conventional method of using bamboos and wood for making form works in civil construction projects. Construction industry is now facing the challenges of high labour cost and labour management problem which now, could be solved to a considerable extent by the use of these equipments. The company offers a wide range of state of the art facilities for construction industry and remains ever as a reliable partner for the construction industry. The company adheres to the policy of supplying quality products at the right price and assures delivery strictly as per commitments. Being a central Excise Licensed unit and also having Central Sales Tax Registration, we are in a position to cater to the need of users from all over the country. Presently, we have a capacity to manufacture various civil constructions supporting equipments like Props, Spans, Centering Boards and all Scaffoldings to cover an area of 4 lakh Square Feet per Month. Our customer Profile consists of most of the reputed construction companies all over India. Finally, meritoriously, we were honored by the Directorate of Industries & Commerce, Government of Kerala, with the best Entrepreneurship award for the year 2004 - 2005 for our outstanding performance. Sreerama Group could grow as leading manufacture &...
