S. R. Engineering Co

<https://www.indiamart.com/srengineeringcompany/>

S.R. ENGINEERING CO was founded IN 1996 by experienced people in the metal machinery business.

About Us

To keep up with current demands we are constantly looking for good used equipment or complete industrial plants for sale. Give us a call and we will give you the best offer on your machines. Our vast stock of machinery, parts and our service guarantee will create a minimum of downtime in your production environment. We offer automations to industries so cut their cost & remove bottle necks in a production line Manufacturing is also a core business of S.R. Engineering Co. OUR MISSION is to provide our customers with the best solutions for their machinery needs at the best price possible, and this backed with dependable service. S.R. Engineering co is specialized in buying and selling used and new metalworking machinery. At S.R. ENGINEERING CO, an educated consumer is our best customer. Talk to manufacturers of new equipment to find out what machine specifications are required for your application. Then call us for the equivalent machine at a fraction of the cost! Our vendors design and develop these as per the defined quality standards by utilizing sophisticated technology and advanced equipment. They are selected by our procuring agents after doing extensive market research and analysis of the market. Our professionals also ensure that the vendors make design these in compliance with the defined quality standards. The quality experts of our organization test the procured products on defined quality parameters before their final dispatch in the Indian...
