About Us

SSG Infoservice was established in the year 2010. We are Service Provider of Data Entry, Data Management, Data Processing, Data Capturing, Data Conversion, Data Mining, Data Extraction, We Research, Form processing, Content writing, Web Design, Audio Transcription etc. We having foreseen the vast potentiality for business development and also tapping of the intelligence of large number of high degree of knowledgeable and enterprising manpower in the region, in providing quality services for business solutions using the latest computing technological tools benefiting even those sectors where much information technology are not used.

The revolution of global information technology has opened vast doors for the various business enterprises in not only show casing their business products, but also their ability to provide good services to the entrepreneurs in every area of business development across the globe in a given period of time. The developed countries across the globe have acknowledged the vast potentiality of the rich knowledge resources of India in all business related spheres. This in turn has opened the floodgates for business outsourcing from foreign countries, especially in the field of ITES (Information Technology Enabled Service), (BPO) Business Process Outsourcing and branching into (KPO) Knowledge Process Outsourcing & (LPO) Legal Process Outsourcing, being a broader subsidiary of BPO Industry. The developed countries across the globe have...
